

- 1) Reliability Analysis of Sugar Manufacturing Plant Using Boolean Function Technique, S.C Agarwal, Deepika, Neha Sharma, International Journal of research and Review in Applied Science. Vol.6 Issue 2, 2011.
- 2) Reliability Analysis of a Three State Two Unit Repairable Complex System with Three Types of Failure Including Environmental Effect Under Head Of Line Repair Discipline, S.C Agarwal, Deepika, has been presented in International Conference on Quality, Reliability and Infocom Technology in Delhi University, Paper Id ICQRIT/09/193, 2009.
- 3) Mathematical Analysis of A 3-State Repairable Complex System With Three Types of Failure Including Environmental Effect Under Head-Of-Line Repair Facility, S.C. Agarwal, published in Bulletin of Pure and Applied Sciences, Vol.28E(No.1)P.19-29, ISSN-0970-6577, 2009.
- 4) Use Of Boolean Function To Evaluate The Reliability Of Methane Gas Plant's Pipeline Ps.C. Agarwal, Deepika, published in Bulletin of Pure and Applied Sciences, Vol.30E(NO.1) P.1-10, ISSN-0977-6577, 2011.
