

An educational visit to Kamla Nehru Park was organised by the Department of Zoology on 13th and 14th Nov., 2025 for the students of BSc. Program (I Sem) and BSc. Zoology Hon. (I sem). About eighty students joined for the visit and were divided in two groups. They were accompanied by Dr Smita, Dr Promod, Dr Sudidha on 12th Nov and by Prof Rajni Arora, Prof Tanushri Saxena and Dr. Pranav on 13th Nov. 2025. Two of our lab staff Mr. Sameer and Mr Asif also accompanied and assisted in making the arrangements for the visit. This park is a part of the Northern Ridge forest near Delhi University, North Campus, known for its greenery and historical significance. It is an important extension of the Aravalli range which is often known as the green lungs for the city. It is a favourite spot for nature lovers as well as for historical landmarks like the Flagstaff Tower, Khooni Jheel Chauburja Mosque etc. Although it is popularly called a park, but it can be more accurately described as a forest/ridge area. The area is rich in native plants and various animal species and also has a butterfly conservatory with number of the host plants for variety of butterflies. Nature walks like this not only help in connecting the students to the environment but also give them an opportunity to observe insects, butterflies, reptiles, birds and mammals in their natural habitats. The students had an interactive talk with Miss Preeti, a nature educator of the area. Exploring a forested area and encountering various native and introduced plant and animal species during nature trail was an interesting and enriching experience for the students.
