

# FLORA AND FAUNA OF SSN COLLEGE

## Flora and Fauna in SSN College Campus:

SSN College campus is full of all kinds of trees. More than 300 trees of 66 different species are present in the new campus. In the new campus, besides the rows of small lawns there is one botanical garden, one herbal garden and one Saghan Vann. All the trees are properly labeled and named. Landscape is well maintained with the regular pruning and cutting the twigs and hedges. The potted plants contain all varieties including succulents, cacti and flowering plants. The campus has a variety of flora including honey bees, butterflies, moths, squirrels etc.
