About the Course

Poetry is booming, and new poets are faced with an overwhelming range of possibilities, in terms of styles, subject matter, sub-genres and platforms. This course will provide students with a toolkit to help them navigate their way through, both as readers and as writers

This class is not about theory or the history of poetry; it's about how you can start writing quality poems in as short a time as possible.

'UDAAN' with the collaboration of 'Swami Shraddhanand college' started a journey with you.

Aims of the course:

- To introduce participants to the basic terminology and techniques of poetry writing.
- To offer a broad overview of the variety of approaches in contemporary English language poetry.
- To provide participants with the opportunity to begin to master these techniques and experiment with different forms.
